"Petition Against Physician-Assisted Suicide"

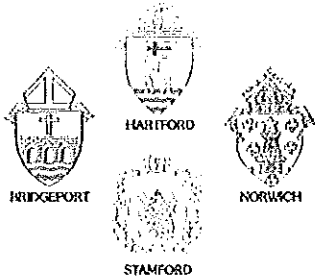

To: Members of the Judiciary Committee

We, the undersigned, urge the Judiciary Committee of the Connecticut General Assembly to oppose any legislation legalizing *Physician-Assisted Suicide* in the State of Connecticut.

The concern of the state legislature should always be to improve palliative care for the benefit of the elderly, disabled and the seriously ill, seeing that they receive effective and compassionate care and pain management. The Connecticut legislature should not legalize a practice like assisted suicide that easily lends itself to the abuse of the most vulnerable in our society.

We, therefore, petition the Judiciary Committee to reject any proposed legislation legalizing *Physician-Assisted Suicide*.
